Pressure Pack™

High Pressure Hose Assemblies

The Pressure Pack series of hoses provides proven engineered solutions to the most rigorous high pressure & temperature gas and liquid transfer applications.

- RF67 Corrugated Metal Hose: 1/4" to 2" ID Pressure range **4,350 to 12,000 psi**
- 403 & 404XM Corrugated Metal Hose: 3" & 4" ID Pressure range **1,600 psi**
- 402X Corrugated Metal Hose: 1/4" to 2" ID Pressure range **1,675 to 5,300 psi**
- Series 58 Fluoropolymer Hose: 1/4" to 1" ID Pressure range **4,000 to 6,000 psi**
- Dense Pac Fluoropolymer Hose: 1/4" to 1 1/2" ID Pressure range **4,000-5,000 psi**
([Engineered High Temperature design](#) available for high ambient heat zone applications)

Typical Applications:

- **Drilling Rig & Oilfield**
- **Steel Manufacturing**
- **High pressure life support**
- **Gas Pigtails**
- **High temperature /Pressure Hydraulics**
- **Petrochemical**
- **Pressure Vessel**

Features and Benefits

- **CRN listed**
- **Cryogenic to 1500 degrees F (depending on product)**
- **Fluoropolymer design meets SAE 100R8 and 100R9**
- **Unlimited shelf life**
